PROJECTS

ACME SEASON 1: THE BEGINNING

Toulouse university - JeanJaurès, 2020

- Created a fictive company that respond to requests such as the creation of websites for a studio reservation, the management of an association, the organization of parties, etc. For that, I created a website for the presentation of the company and a common base for the future projects in which i used most of the skills that i mentioned in the area of expertise

EDUCATIONAL WEBSITE

Mohammed-V university, 2019

- Developed an educational website in a university project with a creative and responsive front end design based on HTML, CSS and JAVASCRIPT. Used PHP on the server side with MySQL as a database to store courses content

OTHER SKILLS

- The ability to analyze complex technical information
- Can analyze, design and implement database structures
- Detail oriented
- Excellent problem solver
- Leadership and teamwork spirit
- Strong Work Ethic
- Time management

HABITS

- Blogging writing content and publishing
- Regular exercise and keeping healthy
- Reading books (Management, self development)
- News crawling and staying updated
